## MAKING THE RIGHT CHOICE

Compare MBS to your other health care options (other trusts or direct with insurance carriers)

## MUNICIPAL BENEFITS SERVICES (MBS) DELIVERS TO YOU:

- Over 50 years exclusively serving Pennsylvania municipalities
- Trust-level self-insured medical, dental, and vision programs (each individual employer is not self-insured on their own)
- Medical program expense ratio under 6%! (means that over \$0.94 of every dollar that comes into the Trust goes to pay claims)
- Group purchasing provides lowest cost programs and stable rates
- No long-term commitment contract (other Trusts require up to a three-year commitment to join)
- Dedicated, experienced customer service team (not a broker-driven model)
- 99% client retention

| <b>EXPERIENCE:</b> Municipalities have been our only clients for over 50 years.  | MBS ONLY MUNICIPALITIES,                  | TRUST OR<br>INSURANCE<br>CARRIER | TRUST OR<br>INSURANCE<br>CARRIER |
|--|---|----------------------------------|----------------------------------|
| SIZE: Our average client size is around 25 employees, but we aggregate all our clients together as though we were one large employer group.  | 50+ YEARS  300+ CLIENTS, 7,500+ EMPLOYEES |                                  |                                  |
| <b>EXCLUSIVE:</b> Self-insured Partnerships with Highmark and UPMC Health Plan Guarantees MBS the absolute lowest claims cost.   | <b>Ø</b>                                  |                                  |                                  |
| MEDICAL PLAN EXPENSE RATIO: Under 6% (as % of overall premium) includes ALL expenses, including stop loss insurance – for example, a typical fully-insured contract will have an expense ratio (also known as retention) from 15% to 20%.                                      | < 6%!                                     |                                  |                                  |
| SELF-INSURED AT TRUST LEVEL, NOT INDIVIDUAL GROUP LEVEL: Blending the experience of all groups significantly lowers risks for employers.   | <b>Ø</b>                                  |                                  |                                  |
| RATE SMOOTHING AND STABILIZATION: Rate smoothing enables MBS to eliminate large fluctuations in individual employer rates year over year.  | <b>Ø</b>                                  |                                  |                                  |
| <b>LOW MEDICAL PLAN RENEWALS:</b> The average annual MBS Trust-level increase has been only 3% since 2013!   | <b>Ø</b>                                  |                                  |                                  |
| <b>RESERVES:</b> Adequate reserve levels protecting ALL groups in the Trust with excess reserves distributed to individual group accounts. No overcharging of groups just to give it back at year-end.   | 8   |                                  |                                  |
