

Messages from Mockenhaupt – September 2022

Fall is here, bringing with it cooler weather and..... budgeting responsibilities!

State Aid Unit Value

After two years of declines, the State Aid unit value increased by almost 8% this year to **\$5,180.4519!** This amount exceeds that of every year with the exception of 2011 (when a one-time revenue collection adjustment was made). Visit the [News](#) page of our website to view or download a chart displaying the complete state aid unit value history.

The state aid distributed to municipalities this month should be applied toward payment of the **2022** Minimum Municipal Obligations (MMOs) that were calculated last year. Any remaining MMO balance should be deposited by December 31, 2022. You can find a copy of your MMOs in your File Cabinet folder on the [FTP site](#).

MMO Reminder

Pension Plan Minimum Municipal Obligations (MMOs) for 2023 must be submitted to the governing body of your municipality/authority by the end of this month, and be included in your 2023 budget.

Beneficiary Records

While performing year-end budgeting and record maintenance, it may be a good time to check with active plan participants to ensure that their beneficiary designations for pension are up to date and maintained in your files.
